Mr. Carter accepted the position in a neat speech, frequently applauded and predicted Republican victory in November. He will resign the position of Commissioner of the Land Office to more closely attend the duties involved in campaige work.

CAN'T CARRY NEW YORK.

What's Prominent Democrat Says on the Subject. Hon. Clinton Beckwith, of Herkimer, a prominent member of the New York State Democratic Committee and a delegate to the Chicago Convention, says concerning Cleveland's chances in New York: "I do not believe Mr. Cleveland can carry this State, and I base westerness the fact that in 1888, without any opposition from within the party, with a unanimous

nomination, supported heartily and

enthuisastically by the party, with a thorough organization, thoroughly equipped with all the elements of success, in possession of both State and National Government, and opposed by a weak candidate, we were badly beaten. Mr. Cleveland has not gained any strength in this district; on the contrary, he is weaker. The people who always want to be on the winning side are now against him, and there is an element in the party that opposed him then that will do so now. I refer to the soldiers and Democratic manufactures. It was the loss of this vote that beat us in 1888, Thomas H. Carter, of Montana, It is against us yet.
